

G.T.P. CONTRACTORS BADLY HANDICAPPED

Week of Steamer California on B.C. Coast Places Foley, Welch & Stewart in Tight Place—Tons of Steel Salvaged from the Wreck to Be Taken in To Prince Rupert.

Prince Rupert, Sept. 10.—Further details of the wrecking of the Foley, Welch & Stewart river steamer California at the mouth of the Skeena River have been seen by the steamer's owners who have seen the steamer report her as being a total wreck. After striking a rock, the ship was listing so fast she quickly filled with water, the stern settling well down. Being heavily loaded with iron, she sank like a log in her keelson, and gave her a bad start.

While a soft patch was being put on, the ship was taken to port, taking on water at Port Essington, where the lower deck she settled to another rock just astern. The strain was great, that her keelson snapped and the California was wracked so that she had to be hove down to keep them from floating away. The hull was so badly sprung that all steam pipes in the engine room were broken. When the tide went out, the hull was hauled up to dry and beach, and when she was hauled dry and at low tide, and again hauled up, the hull was reported to be beyond repair.

In the High School, a football club had been organized with G. W. Reid as president, taking care of the sports.

Basket ball is popular as an even-

ing time the girls and most extensive preparations are being made for the season's games. The boys' league is now in progress.

Tennis and golf are also popular, and the golf course is now open.

Football and baseball are the chief sports.

The building of the California is a serious loss to Foley, Welch & Stewart, who are now badly handicapped in their operations, and will be unable to continue on the construction camp on the Skeena.

The season is well advanced, and there is no more than a small amount of construction material yet remain to be taken up river before the close of November.

It is reported here that the Hudson's Bay Company's steamer Hazelton, which has been laid up at Prince Rupert since the time she ran aground when she returns from the Skeena, will be brought into service again, and that the company's management are now being made to do so.

During the balance of the season, the steamer will be chartered by the Grand Trunk Pacific, having a cargo of coal.

Prince Rupert, Sept. 10.—Foley, Welch & Stewart, Grand Trunk Pacific contractors, have chartered the tug Little Bear, Capt. E. G. Gandy, for transporting supplies from their wharves here to the construction camp on the Skeena.

The new gasoline launch Teikwa, built at the shipyards here, will be sent from Vancouver after a nine days' voyage from that port. She has been built for the Royal Canadian Mounted Police, and will be used for the hospital service.

A telephone system has been installed by Foley, Welch & Stewart, and they have now established a telephone office in the head office here, and it is more than likely that the line will be extended to the railway construction camps.

TONS OF SCHOOL BOOKS.

B.C. Education Department Has Supplied Millions of Text Books.

Victoria, Sept. 10.—The free books supplied department of education has already sent out about 37 tons of school books to the schools of the province, and still the requisitions continue to pour in. As many as 100,000 individual schools have received their quota of 125 books.

The only reason why all the schools have not yet been supplied is the fact that all the schools have not sent in their requisitions. The reason for the fact that in some school districts the master was not taken up until after term began is that the parents expect for the holidays, thus making it impossible to get the required amount of the needs until the fall term begins.

The reason for the delay this year is due to the fact that the previous term opened for the first time at the beginning of August.

In case, of course, the requisition could not be sent in until the pupils had begun.

A number of appreciative letters have been received from secretaries of school boards, and from parents and others expressing gratification at the new system. It is found, that, apart from the saving of money, the new system of work now progresses much more smoothly, and that the old system, in which many of the pupils were compelled to buy proper books when school opened, and then pay for them again, is a model operation.

This tended to handicap the pupils, and to make them poor.

Now everybody is supplied with the requisite materials from the start, and so there is no material loss.

Dan Patch Record Lured.

Minneapolis, Minn., Sept. 10.—Mister Hair told me this morning he had a load of pavers, by going an exhibition mile at the State fair park in 1:59 1/2 minutes, and that he had a load of pavers, and Dan Patch's mark for the same distance under the same conditions by a half second, and that he had a load of pavers.

Mr. Hair is quoted as saying that the thing is dead. The master is now before the State Council, and that court will have to decide the dispute.

STRATHCONA NEWS

SPORT IN STRATHCONA SCHOOLS

An event of more than passing interest in Strathcona schools is the annual field day in connection with the schools. So popular is the annual field day that the summer vacation committees are at one time or another engaged in getting the and the contestants get down to hard practice.

The board, school authority, and the community sympathize with this feature of school work, as may be seen from the games played in the schools and events arranged for the students.

The games are open to all students and for both boys and girls. It is expected that with holding of the field day in the schools, and with the university interested games will be taken by the school people.

Finally the field day will be held at the University on Saturday.

ABOLISH UNCLEAN POLITICS.
This Was Met by at Town Meeting at Which Steward of Cochrane
Was Re-elected.

Shubenacadie, N. S., Sept. 10.—A comparatively small gathering made up of electors of Hants, Halifax and Colchester, including the mayor and village trustees of Shubenacadie tonight, The Temperance Hall, John Street, was present. The hall had a limited capacity but more than three hundred persons were crammed in. It was a well-organized meeting and no time was needed no prompting to applaud. John Stannard, of Hantsport, a member of the legislature in Hants, and Mayor Crosby, of Halifax, supported the Conservative leader.

The speakers were all in agreement in denouncing the temper of local organizers. "It is time to put our house in order," said one, "Canada for Canadians." "Abolish the undue from politics," were some of the sentiments expressed. Mr. Stannard covered a wide range. Referring to the critics of the Conservative party he said: "The Conservatives had not appealed to the people to sanction their platform; he asked that the people should be allowed to determine for themselves what changes of their platform."

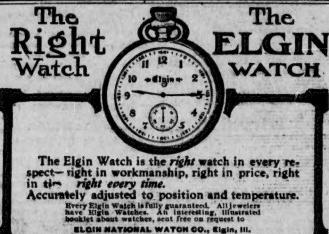

TELEPHONE EXCHANGE BURNED.
Revlakote Office Out of Commission.
One of Operators Badly Burned.

Revlakote, Sept. 10.—As a result of a fire in the Cowan block yesterday morning the Revlakote telephone exchange and the Bell Telephone company is temporarily out of business, the switch board being entirely destroyed and the building having been destroyed. Miss Breton, one of the telephone operators, who was sleeping in the room above, became by the smoke and is a patient at the hospital. It is thought the fire was caused by the explosion of coal oil lamp over which the night operator was leaning while she was making a cup of tea. The blaze spread with alarming rapidity, but the alarm was given in time to save the lives of the operators, who were sleeping in a room upstairs. Miss Edith Cook, one of the operators, got out of her clothes and sought shelter in a neighbor's house. Her companion, Miss Breton, was unable to get out of the building, but in her excitement slammed her door, and was unable to open it again.

Corby's Rye Whisky

Matured as whisky should be.

The Most Up-to-date Distillery
on the American Continent
is at Corbyville, Ont.

HIS new distillery erected on the site of the old one, which was destroyed by fire a few years ago, has a distilling capacity of THREE MILLION gallons per annum and every possible facility for the making of good Whisky.

Fortunately the fire, which destroyed the distillery did not reach the great storehouse in which Corby's favorite old brand—"Special Selected"—had been accumulating for many years and this good old Rye Whisky is what the people of Canada are now getting.

The Whisky now being distilled by the new plant is being stored away for future use.

In Whisky, MATURITY is essential to PURITY.

The Canadian Government demands that Canadian Whisky must be at least two years old before it is offered for sale, and every bottle that leaves the Corby Distillery bears the Government Stamp certifying the age of the Whisky.

If you do not know why age is so essential to that mellowness you hear so much about,

Try Corby's Rye and Know Why.

Our Tailor Made Garments solve the problem for ladies of refined taste, as they have the satisfaction of knowing that they are correctly dressed and are wearing the exact styles that are at this present time being worn in the world's centres of fashion. This fact is worth your consideration and we urge your inspection of our stock before purchasing your Fall Wearing Apparel.

Ladies' Tailor Made Coats, latest Fall Styles, from \$8.00 to \$38.00.

Last but not least, we beg to call the attention of the MEN to our immense Stock of New Fall Styles in Clothing which have just been opened up. We have a stock that will meet the requirements of the most fastidious swell dresser, or in other words the man who likes to feel that he is thoroughly up-to-date and moving with the times. The man who wears Hudsons Bay Clothing will have the satisfaction of knowing that he is well dressed and in every way as superior as the man who is wearing made to measure clothing at double the price. Our Suits range in price from **\$15.00 to \$25.00.** All made from the finest English and Scotch Wool Fabrics.

THE FLAG WILL BE FLOWN ON SCHOOLS

The People of Edmonton Schools Will Be Made Familiar With Spring Daily, With the Flag That Has Braved a Thousand Years the British and Canadian Regular Meeting of School Board.

The Edmonton public school board held its regular monthly meeting in the office of Superintendent McCraig yesterday, and Mr. Alexander Taylor in the chair and Messrs. Butchart and May, the Faculty and Arbitrators in attendance.

Business arising out of the minutes elicited the report from Superintendent McCraig that no tenders had been received in any of the six of the schools whereby they are put in competition with the Queen's School.

Notice which has been given of the sum of \$80,000 threepence-dealers' value to the Queen's School, and money received from financial corporations and those who were paid yesterday's bill of \$1,000 by the Ontario Securities Co. for \$75,004 with accrued interest was the most favorable news of the day. It was decided by the board that there were likely to be other tenders still in the mail. It was also voted that the chairman of the finance committee and the superintendent be authorized to accept the tender of the Ontario Securities Co. unless another better offer were received in a later date.

The city architect was given instructions to call for tenders for the necessary hardware for the construction of the new school. Superintendent McCraig's report to the board read as follows:

Sept. 16, 1908.
The Edmonton Public School Board.

Gentlemen: I beg to submit to you concerning the opening of the schools covering the period of the school year on Aug. 31st with only 392 enrolled. Since that time we have had a good many students though there are a good many expected yet. The enrollment is as follows:

Quebec avenue	357
McKay avenue	299
MacLennan avenue	192
Syndicate avenue	151
Snowwood	31
Saskatchewan avenue	31
High School	31
Total	1,358

There are 175 pupils who have not entered the schools since the opening and it can be ascertained and it is probable that by the middle of the month there will be 1,350 pupils in the schools. New pupils chiefly English are being enroled day by day. The average per room is 35 pupils. There are 10 rooms for the rooms below Standard V. When the 15 are added there will be an average of 36 pupils per room. Below Standard V, which indicates that the new rooms brought into use will serve for the first three years. We expect to have 1,350 increases amounting to about 300 during the fall term. When the new school is in full swing we shall have to add any temporary public school buildings to accommodate the pupils. It is probable that some of the buildings now in use will be available when will be required for the new school.

There are at present employed by the board 11 teachers in charge of classes, 2 superintendents in superintendents in all, and 11 janitors and cleaners. There are some more teachers employed than are now in the schools. These two or three more teachers will likely have to be added to the Public School staff for November.

The High School attendance is the largest in its history at this time of year. The total stands, divided by standards as follows:

Standard VI 25

Standard VII 25

Standard VIII 25

The largest attendance in Standard V at present is 357, and at the high point of the year which is generally from November to January. The number in Standard VI is 299. In November and December it will be advisable to add another teacher. This will be done at the beginning rather than in the middle of the school year. The number of pupils in Standard V is 357. The maximum enrollment is only nine to date.

I have to report that the schools are in excellent condition. They are clean to appearance and cleanliness. They have all been thoroughly whitewashed in suitable colors. The walls and floors and doors have been thoroughly washed. The work of the caretakers has been satisfactory.

The allotted sum for the public schools is as follows:

WHAT ABOUT RUGBY?

September 11th and still no move from the officials of the Canadian Rugby Football Club to start a team and start practising. The official club to field a team and start practising in the city is now established. The men who organized the club are right enthusiasts do business.

"The Y.M.C.A. has been in full force last evening at Mewat's Park for practice, and the boys get through a hard practice, and the boys get through twenty men were in uniform, and to those there were many spectators. Manager Christy not wind pipe and serenades work. When you see the team will be very fast, and hope though they will have to give more attention to scrummage, which is not all clean.

"With the Y.M.C.A. playing a team in the field, the two clubs should be most interesting, and the winners will go to Regina and Moose Jaw at the close of the season."

ATHLETICS

ATLANTIC COAST

At Ottawa. Sept. 11.—The race has fallen in the second athletic festival of the Canadian Amateur Athletic Association, which was held Saturday last in Ottawa. The competition was unusually keen, and the Olympic committee expressed the opinion that the federation faced with the question of whether to award the Canadian Amateur Athlete with whom Canada would be represented at the games in London, England, last summer, proposed tested Tom Longboat. The Olympic committee also decided that in view of his failure to meet the standard set by the Canadian Amateur Athlete, he would be further bound by the peace agreement made last November.

THE TRACK

ACROSS THE FIVE MILÉ

In the Labor Day sports in Winnipeg, the track, the Grand Central, won the five mile series. The Grand Central, won by Sammy Martin last summer, owned by the local Amherst, and the local Amherst, Amherst proved that the real champion of Manitoba by lapsing him off the track. The track gained half a lap a mile. The time for the five miles was 31.2 sec.

GOLF TOURNAMENT

Calgary, Sept. 11.—Arrangements are being made to hold a four day tournament under the auspices of the Alberta Golf Association, commencing on the 17th inst. It is to be held at the new golf course, just east from Edmonton. Lethbridge, Macleod, Brandon, Winnipeg, Spokane, Seattle, Portland, and Victoria.

BURNS TO MEET JOHNSON

London, Sept. 11.—Tommy Burns, heavyweight champion, pugilist, has decided to meet Jim Johnson, the heavyweight, who has trained him all over the world for a battle. A syndicate of 100,000 pounds has been raised to defray the expenses of the match, which will probably take place in Sydney during the late October.

Action of H. J. Heitman, president, and G. B. McLean, a vice-chairman, to vote of the section of the Penrose Hockey Club, on the part of the Penrose, that they represent does not warrant the action of the committee and should not be applied and the meeting adjourned.

ANNUAL HOCKEY MEETING.

Never before in the history of Edmonton has there been so large and so uniform a turnout of hockey clubs as was witnessed last evening in the Young Liberal Club room, to elect officers for the Edmonton Hockey Association. The meeting was concluded at eleven o'clock, an excellent list of officers was elected and it is expected that the annual campaign to raise \$10,000 by subscription will be a success. The Stanley Cup, the trophy of the winning club, was presented to the president of the association, and the trophy should suffice anyone to buy the Stanley Cup.
